SUMMARY

Final year B.Tech CSE student at Vellore Institute of Technology with hands-on experience building computer vision projects in Python, PyTorch. Built a real-time driver drowsiness detection system and a CNN-based skin and oral disease triage project. Comfortable with Java and SQL, and looking for SDE or ML/AI roles.

EDUCATION

Vellore Institute of Technology 2023–2027
Bachelor of Technology in Computer Science and Engineering (AI/ML)
CGPA: 8.1

Shri Shankaracharya Vidyalaya [Bhilai, Chhattisgarh]
CBSE – 85.8 2021
CBSE – 79 2023

PROJECTS

AI-Powered Skin and Oral Disease Triage System [Nov 2025-Mar 2026]
Tech Stack: Python, PyTorch, CNNs, Image Preprocessing

- Curated and preprocessed a multi-class image dataset (HAM10000 skin-lesion images combined with an oral-disease image set, 10,000+ images total) for a CNN-based triage system designed to bring low-cost disease screening to rural healthcare settings.
- Cleaned, labeled, and organized image data across diagnostic categories to improve model training reliability, collaborating with a cross-functional team on dataset structuring.
- Prepared and delivered the project presentation for academic review, communicating dataset methodology, model design rationale, and clinical relevance to the evaluation panel.

Driver Drowsiness Detection System [May 2026-Jul 2026]
Tech Stack: Python, MobileNetV2, MediaPipe Face Mesh, OpenCV

- Built a real-time driver drowsiness detection system by combining a MobileNetV2 CNN classifier with MediaPipe Face Mesh landmark tracking to monitor eye and facial cues.
- Trained and validated the classification model, achieving 86% training accuracy and 77% validation accuracy on heldout data.
- Authored the full technical report and presentation for academic submission, documenting the model architecture, training pipeline, and evaluation results.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL
- **Core CS:** Data Structures & Algorithms, Object-Orientated Programming
- **Tools & Platforms:** MySQL, GitHub
- **Spoken Languages:** English, Hindi

CERTIFICATIONS

- **Coursera:** Applied Machine Learning in Python
- **NPTEL :** Cloud Computing
- **NPTEL** : Introduction to Internet of Things
- **Google** : Google IT Support

EXTRACURRICULAR ACTIVITIES

- Participated in the Inter-Hostel Badminton Tournament
